

SCCGS Quarterly Volume 45 (2022) Index

To find all instances of a name, search for variants caused by poor handwriting, misinterpretation of similar letters or their sounds, e.g., L for S, c for e, n for u, u for a; phonetic spellings (Aubuchon for Oubuchon); abbreviations (M' for Mc); single letters for double (m for mm, n for nn); translations (King for Roy, Carpenter for Zimmermann); substitute each vowel for other ones, search for nicknames; when hyphenated, search for each surname alone, with and without "de" or "von", a space or apostrophe (Lachance and La Chance, O'Brien and Obrien). For more suggestions, see the [SCCGS website Quarterly pages](#). This volume is free to members. [Join SCCGS](#) or [order pages](#).
