To find all instances of your family name search for variants caused by poor handwriting misinterpretation of similar letters or their sounds. A few such examples are L for S c for e n for u u for a; phonetic spellings (Aubuchon for Oubuchon); abbreviations (M' for M^c); single letters for double (m for mm n for nn); translations (King for Roy Carpenter for Zimmermann). Other search tips: substitute each vowel for other ones search for nicknames when hyphenated – search for each surname alone with and without “de” or “von”; with and without a space or apostrophe (Lachance and La Chance O’Brien and OBRIEN). More suggestions are on the SCCGS website Quarterly pages at <https://stclair-ilgs.org>.
